CreditUpdate New Issue Report

No. 53/2025 23 May 2025

RATIONALE

TRIS Rating assigns a rating of "AA-" to CP Axtra PLC's (CPAXT) proposed issue of up to THB18 billion senior unsecured debentures due within eight years. The proceeds from the new debentures will be used to refinance CPAXT's outstanding debts. At the same time, we affirm the company rating on CPAXT and the ratings on its outstanding senior unsecured debentures at "AA-" with "stable" outlook.

The ratings reflect our assessment of CPAXT's group status as a core subsidiary of CPALL PLC (CPALL, rated at "AA-/Stable"). Our view on the group status is based primarily on CPAXT's vital role in cementing the group's leading position in the wholesale and grocery retail businesses, together with CPAXT's significant earnings contribution to CPALL.

In the first quarter of 2025, CPAXT's operating performance was in line with our expectations. CPAXT reported THB130 billion in operating revenue, while EBITDA remained unchanged at THB9 billion. The adjusted net debt was THB135.8 billion, with a debt to EBITDA ratio of 3.7 times.

As of March 2025, CPAXT's total interest-bearing debt, excluding lease liabilities, was THB93.6 billion. The company's priority debt was THB16 billion, translating to a priority debt ratio of 17%.

The financial covenant on CPAXT's debenture obligations requires the company's net interest-bearing debt to equity ratio to stay below 2.5 times. As of March 2025, the ratio was 0.26 times. We expect CPAXT to remain in compliance with the financial covenants over the next 12 to 18 months.

RATING OUTLOOK

The "stable" outlook follows the rating outlook on CPALL and our expectation that CPAXT will maintain its group status as a core subsidiary of CPALL. We expect CPAXT will continue to represent a core component of CPALL's revenue and business profile.

RATING SENSITIVITIES

As a core subsidiary of CPALL, the ratings on CPAXT are tied to the rating on CPALL. Any change in the rating on CPALL, or CPAXT's group status, will affect the ratings on CPAXT accordingly.
